## Skills

- JavaScript
- React
- Node Js
- HTML & CSS
- React Native
- Flutter
- Git & GitHub
- SQL
- PHP
- Python
- Figma
- Java

## Languages

English  
Confident. B2 - CLE

Spanish  
Native

## Profile

As a systems engineering student deeply passionate about programming and design, I've cultivated expertise in Java, Python, PHP, JavaScript, and HTML/CSS. I specialize in modern web development, proficient in React for frontend and Node.js for backend, utilizing RESTful APIs and JWT.

My projects have not only expanded my technical skills but also sharpened my problem-solving abilities. Committed to continual learning, I eagerly seek new challenges to broaden my expertise. With a strong foundation in various technologies and a fervent passion for programming and design, I'm well-prepared to excel in dynamic opportunities within the field.

## Projects

- Simulators Kinematics and Newton's Laws - [Simulators](#)
- Church Web Application- [Sempiterno](#)
- Technology Store - [ICON](#)
- Sport Blog- [DNSports](#)
- Binary Tree Structure - [Binary Tree](#)
- Graph visualization - [Graph Visualization with Vis.js](#)
- WebApp Rick and Morty Api - [Rick and Morty Characters](#)
- Web Page ITSA Event - [Obras gráficas de PAZ](#)
- Dream Agency landing page - [Dream Agency](#)

## Education

Student / Systems Engineering  
Universidad de la Costa CUC

## Certifications & Courses

- JavaScript for Beginners - The Complete introduction to JS - Udemy
- Python Programming Beyond The Basics & Intermediate Training - Udemy
- Desarrollo Web Online - Platzi
- Git y GitHub - Platzi
- Responsive Desing - Platzi
- Controles y Seguridad Informática - Sena
